FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

Wine of Cardui

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefitted by it.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

The weather has been spring-like this week, and the thoughts of the Camden citizen are impressed with matters pertaining to the garden.

The little child of Mr. and Mrs. G. H. Harper, of Eggville, was severely burned by falling in the fire last Friday. It was thought to be some better yesterday.

We invite expressions and desire the opinions of our correspondents on topics of general interest, but in order to give them publication such articles must be brief and to the point.

Bob Ayres and Miss Lovie Finley were united in marriage last Tuesday. The happy event took place at the groom's home, 3½ miles north of town. Rev. N. R. Waters officiating. Knowing ones say that a bill to incorporate the town of Camden will be passed by the general assembly without any trouble. We infer from this that the bill has the approval of our representatives in that body.

In view of the fact that there is smallpox at Jackson and other localities, would not vaccination be advisable? We take it that a little prevention would be a wise precaution upon the part of the citizens of this community.

The sad news cabled Wednesday from Manila that Chaplain Lewis J. Leland of the First Tennessee Volunteers died recently at Iloilo of smallpox, was learned with sorrow and regret here by those who knew and admired him. If the intelligence of his death is true, it is hard to believe that it was due to smallpox, as he had the disease a number of years ago, though it was known that there was smallpox in the First Regiment, now at Iloilo.

Tuesday Judge L. E. Davis applied relief measures to a few of the boys confined in the county jail by action of the criminal court. In speaking of the corporation I shall refer to the Liberty reporter, as it seems he was driving at me. I don't deny that those engaged in the illegal sale of whisky are guilty of selling it to minors—that is the very thing we don't like. With the town incorporated we would then know who to handle by the law. Is it not best to have a corporation and stop horse-swapping and keep order in town on public days? A lady then could go through town without danger of being run over by reckless riders and drivers and insulted by drunken men. A man that drinks will have it, corporation or no corporation. He considers whisky a great evil. Whisky will not hurt you if you don't run after it. I have stability enough not to run after it only when I want a dram. What if he should be bitten by a snake? He would have his neighbor run his horse ten miles to get whisky. If we had a corporation he could get it nearer home. A corporation does not mean the sale of whisky alone. It means progress, public improvements, law and order, a good school, and many other public advantages. We can overlook his objections to some extent, for a man not acquainted with the advantages of a corporation can not appreciate it.
